How Are We Doing?

Did you know that every time a student is referred for a discipline problem, information about that referral is put into a data base called SWIS? On a regular basis this data is reviewed by the PBS Team. The chart below shows JBHS data for the first semester of the school year. There were a total of 1450 referrals made. Dress code violations have been the highest number of referrals followed by disrespect. With your continued modeling and rewarding for positive student achievement, we hope to decrease these areas of concern. Remember we can get student buy in on this issue if we model it ourselves both in and outside of the classroom.

- The chart below shows the positive effect PBS has had on our number of referrals. You will notice that all areas have had a steady decrease in numbers with the exception of dress code. It is important to note that before this year, dress code violations were not tracked in SWIS data.

Happy second semester! Your Positive Behavior Support Team has many wonderful things to report for the first half of the year. We had a successful fundraiser running the concession stand at the Powder-puff game this year and we have a new fundraiser in the works that we know many of you will be interested in. We plan to have a flea market in March. Stay tuned for more information about this exciting upcoming event. We have also had two reward events, both silent auctions, where students received great prizes for their SOAR tickets.

Thank you so much for your continued efforts in rewarding our students for their positive behavior both in and out of the classroom. Remember to email Sarah Silva for more SOAR tickets and keep handing them out to your wonderful students!
THANK YOU!!!

This year’s SOAR T-shirts were generously donated to JBHS by Advanced Tutoring Center. THANK YOU TOM RILEY FOR YOUR SUPPORT AND EFFORT!

Thank you to the following Teachers for their support of PBS:
Mary McBee, Deb Rau, Jill Horvath, and Jennifer Bozenbury who have given out the most SOAR Reward
