February 26, 2009

Dear Sam's Club:

The staff and students at Homosassa Elementary are participating in a new behavior program called Positive Behavior Support. This program teaches staff and students to correct student behavior through positive reinforcement and teach correct behavior to replace inappropriate behaviors. As part of the program we have a Dolphin Depot (store) that students can purchase toys, school supplies, sundry items and special party days from Dolphin Dollars they earn for their good behavior and going beyond expectations in being dependable, in control, showing respect, and having a good attitude. We have had a significant decrease in student discipline referrals already this year.

We are requesting a donation to help replenish our Dolphin Depot. We have found the most popular items in the Depot to be toothbrushes and soap. Many of our students come from very low-income families so this store is a very big treat for them. The experience of shopping not only allows them opportunity to purchase things, but gives them life skills in handling money.

The staff and students of Homosassa Elementary will appreciate any donation that is given to help with this wonderful program.

Thank you for your support. It is through business donations that Homosassa Elementary is so successful in teaching our children.

Sincerely,

Scott Hebert
Principal
