

# COMMUNITY INVOLVEMENT

First Day of School: At the beginning of each school year, parents are given a detailed outline of the program. In years past we have used a tri-fold/color brochure; this year we included the information in the LPE handbook/calendar.

Homework Assignments: To encourage PBS/character trait dialogue at home, teachers assign homework on relevant topics.

Newsletter: PBS updates and character trait education are featured in monthly newsletters to parents. We use this opportunity to address parents' concerns with behavior and other life issues that influence student well-being at home and school. Through this collaboration we promote the implementation of PBS at home and school.
