

## FLPBS Chat: Equity Profiles

### Example #1 - ODR

Racial Group	Number of Students Enrolled at the School	Number of Students in Group Who Received a Referral	Total Number of Referrals from Group	Risk	Risk Ratio	Percent of Student Body	Student Composition	Referral Composition/ Comparison
				(% of students in a group who have at least one referral)	(group's risk of receiving a referral compared to all other students)		(% of students who have referrals who are members of that racial group)	(% of referrals accounted for by students of a particular group)
Hispanic	29	2	8	6.9%	0.20	5.2%	1.1%	1.5%
Black/African American	469	171	506	36.5%	3.02	83.8%	94.0%	95.1%
Multi-Racial	22	3	4	13.6%	0.41	3.9%	1.6%	0.8%
American Indian/Alaskan Native	1	0	0	0.0%	0.00	0.2%	0.0%	0.0%
White	38	5	9	13.2%	0.39	6.8%	2.7%	1.7%
Asian	1	1	5	100.0%	3.09	0.2%	0.5%	0.9%
Native Hawaiian/Pacific Islander	0	0	0	N/A	N/A	0.0%	N/A	N/A
<b>Totals</b>	<b>560</b>	<b>182</b>	<b>532</b>			<b>100.0%</b>		
ESE Students	94	33	119	35.1%	1.10	16.8%	18.1%	22.4%
General Education Students	466	149	413	32.0%	0.91	83.2%	81.9%	77.6%
<b>Totals</b>	<b>560</b>	<b>182</b>	<b>532</b>			<b>100.0%</b>		

#### Hispanic

**Risk** Of the 29 Hispanic students, 6.9% have at least one referral.

**Risk Ratio** Hispanic students are 0.2 times more likely to have at least one referral than all other students.

**Student Comp.** 1.1% of students with at least one referral are Hispanic; this group comprises 5.2% of the total student population.

**Referral Comp.** Of the 532 referrals generated, 1.5% were attributed to Hispanic students.

#### Black/African American

**Risk** Of the 469 Black/African American students, 36.5% have at least one referral.

**Risk Ratio** Black/African American students are 3.02 times more likely to have at least one referral than all other students.

**Student Comp.** 94% of students with at least one referral are Black/African American; this group comprises 83.8% of the total student population.

**Referral Comp.** Of the 532 referrals generated, 95.1% were attributed to Black/African American students.

#### Multi-Racial

**Risk** Of the 22 Multi-Racial students, 13.6% have at least one referral.

**Risk Ratio** Multi-Racial students are 0.41 times more likely to have at least one referral than all other students.

**Student Comp.** 1.6% of students with at least one referral are Multi-Racial; this group comprises 3.9% of the total student population.

**Referral Comp.** Of the 532 referrals generated, 0.8% were attributed to Multi-Racial students.

#### American Indian/Alaskan Native

**Risk** Of the 1 American Indian/Alaskan Native students, 0% have at least one referral.

**Risk Ratio** American Indian/Alaskan Native students are 0 times more likely to have at least one referral than all other students.

**Student Comp.** 0% of students with at least one referral are American Indian/Alaskan Native; this group comprises 0.2% of the total student population.

**Referral Comp.** Of the 532 referrals generated, 0% were attributed to American Indian/Alaskan Native students.

#### White

**Risk** Of the 38 White students, 13.2% have at least one referral.

**Risk Ratio** White students are 0.39 times more likely to have at least one referral than all other students.

**Student Comp.** 2.7% of students with at least one referral are White; this group comprises 6.8% of the total student population.

**Referral Comp.** Of the 532 referrals generated, 1.7% were attributed to White students.

#### Asian

**Risk** Of the 1 Asian students, 100% have at least one referral.

**Risk Ratio** Asian students are 3.09 times more likely to have at least one referral than all other students.

**Student Comp.** 0.5% of students with at least one referral are Asian; this group comprises 0.2% of the total student population.

**Referral Comp.** Of the 532 referrals generated, 0.9% were attributed to Asian students.

#### ESE Students

**Risk** Of the 94 ESE Students students, 35.1% have at least one referral.

**Risk Ratio** ESE Students students are 1.1 times more likely to have at least one referral than all other students.

**Student Comp.** 18.1% of students with at least one referral are ESE Students; this group comprises 16.8% of the total student population.

**Referral Comp.** Of the 532 referrals generated, 22.4% were attributed to ESE Students students.

#### General Education Students

**Risk** Of the 466 General Education Students students, 32% have at least one referral.

**Risk Ratio** General Education Students students are 0.91 times more likely to have at least one referral than all other students.

**Student Comp.** 81.9% of students with at least one referral are General Education Students; this group comprises 83.2% of the total student population.

**Referral Comp.** Of the 532 referrals generated, 77.6% were attributed to General Education Students students.

**Example #2 – OSS**

Racial Group	Number of Students Enrolled at the School	Number of Students in Group Who Received an OSS	Total Number of OSS events from Group	Risk	Risk Ratio	Percent of Student Body	Student Composition	Referral Composition/ Comparison
				(% of students in a group who have at least one OSS)	(group's risk of receiving OSS compared to all other students)		(% of <u>students who received OSS</u> who are members of that racial group)	(% of <u>OSS events</u> accounted for by students of a particular group)
Hispanic	109	9	20	8.3%	1.12	10.6%	11.7%	15.5%
Black/African American	23	8	17	34.8%	5.08	2.2%	10.4%	13.2%
Multi-Racial	21	4	5	19.0%	2.64	2.0%	5.2%	3.9%
American Indian/Alaskan Native	4	0	0	0.0%	0.00	0.4%	0.0%	0.0%
White	854	54	84	6.3%	0.49	82.8%	70.1%	65.1%
Asian	20	2	3	10.0%	1.35	1.9%	2.6%	2.3%
Native Hawaiian/Pacific Islander	0	0	0	N/A	N/A	0.0%	N/A	N/A
<b>Totals</b>	<b>1031</b>	<b>77</b>	<b>129</b>			<b>100.0%</b>		
ESE Students	100	25	48	25.0%	4.48	9.7%	32.5%	37.2%
General Education Students	931	52	81	5.6%	0.22	90.3%	67.5%	62.8%
<b>Totals</b>	<b>1031</b>	<b>77</b>	<b>129</b>			<b>100.0%</b>		

<b>Hispanic</b>								
Risk	Of the 109 Hispanic students, 8.3% have at least one referral.							
Risk Ratio	Hispanic students are 1.12 times more likely to have at least one referral than all other students.							
Student Comp.	11.7% of students with at least one referral are Hispanic; this group comprises 10.6% of the total student population.							
Referral Comp.	Of the 129 referrals generated, 15.5% were attributed to Hispanic students.							
<b>Black/African American</b>								
Risk	Of the 23 Black/African American students, 34.8% have at least one referral.							
Risk Ratio	Black/African American students are 5.08 times more likely to have at least one referral than all other students.							
Student Comp.	10.4% of students with at least one referral are Black/African American; this group comprises 2.2% of the total student population.							
Referral Comp.	Of the 129 referrals generated, 13.2% were attributed to Black/African American students.							
<b>Multi-Racial</b>								
Risk	Of the 21 Multi-Racial students, 19% have at least one referral.							
Risk Ratio	Multi-Racial students are 2.64 times more likely to have at least one referral than all other students.							
Student Comp.	5.2% of students with at least one referral are Multi-Racial; this group comprises 2% of the total student population.							
Referral Comp.	Of the 129 referrals generated, 3.9% were attributed to Multi-Racial students.							
<b>American Indian/Alaskan Native</b>								
Risk	Of the 4 American Indian/Alaskan Native students, 0% have at least one referral.							
Risk Ratio	American Indian/Alaskan Native students are 0 times more likely to have at least one referral than all other students.							
Student Comp.	0% of students with at least one referral are American Indian/Alaskan Native; this group comprises 0.4% of the total student population.							
Referral Comp.	Of the 129 referrals generated, 0% were attributed to American Indian/Alaskan Native students.							
<b>White</b>								
Risk	Of the 854 White students, 6.3% have at least one referral.							
Risk Ratio	White students are 0.49 times more likely to have at least one referral than all other students.							
Student Comp.	70.1% of students with at least one referral are White; this group comprises 82.8% of the total student population.							
Referral Comp.	Of the 129 referrals generated, 65.1% were attributed to White students.							
<b>Asian</b>								
Risk	Of the 20 Asian students, 10% have at least one referral.							
Risk Ratio	Asian students are 1.35 times more likely to have at least one referral than all other students.							
Student Comp.	2.6% of students with at least one referral are Asian; this group comprises 1.9% of the total student population.							
Referral Comp.	Of the 129 referrals generated, 2.3% were attributed to Asian students.							
<b>ESE Students</b>								
Risk	Of the 100 ESE Students students, 25% have at least one referral.							
Risk Ratio	ESE Students students are 4.48 times more likely to have at least one referral than all other students.							
Student Comp.	32.5% of students with at least one referral are ESE Students; this group comprises 9.7% of the total student population.							
Referral Comp.	Of the 129 referrals generated, 37.2% were attributed to ESE Students students.							
<b>General Education Students</b>								
Risk	Of the 931 General Education Students students, 5.6% have at least one referral.							
Risk Ratio	General Education Students students are 0.22 times more likely to have at least one referral than all other students.							
Student Comp.	67.5% of students with at least one referral are General Education Students; this group comprises 90.3% of the total student population.							
Referral Comp.	Of the 129 referrals generated, 62.8% were attributed to General Education Students students.
